The maximum financial contribution granted by the Contractor to the Beneficiary shall not exceed 40 000 euros.

6.2. Terms and Conditions of Financial Support

The financial support is paid in three instalments: a pre-financing payment and two additional payments conditioned on the implementation and development of the solution, in accordance with **Article 6.3**.

The Beneficiary's receipt of pre-financing is subject to compliance with the conditions set out in the payment schedule in **Article 6.3**.

Mid and final payment to the Beneficiary is conditional upon a favorable resolution by the Organizer, based on the progress and results of the project.

The Organizer will therefore monitor the proper execution of the Project to ensure that the Beneficiary fulfills its tasks in accordance with **Appendix 1 - The Project** and submits the corresponding deliverables. To this end, the Beneficiary shall submit to the Organizer and to the Contractor, upon request, any document, report and/or information to justify the proper execution of the Phase 3 of the Project by the Beneficiary. In accordance with **Article 5**, the Contractor may suspend and/or reduce the amount of the different grant payments if the corresponding tasks of the Phase 2 and Phase 3 have not been properly carried out.

The payment of the financial contribution to the Beneficiary is also subject to the Beneficiary's prior written notification of the date and amount to be transferred to the Beneficiary's bank account as identified in **Appendix 3**. Payments shall be made no later than thirty (30) days after notification by the Contractor.

Bank and transaction costs related to the processing of funds made available to the Beneficiary by the Contractor are covered by the Beneficiary.

The Beneficiary is responsible for compliance with any tax and legal obligations that may be attached to the grant.

The Beneficiary acknowledges that the “no double funding” rule applies to the awarded grant. “Double funding” means the situation where the same costs for the same activity are funded twice using public funds. It is a fundamental principle underpinning the rules for public expenditure in the EU that no costs for the same activity can be funded twice from the EU budget. It is not allowed in any circumstances. The Beneficiary undertakes to follow this rule. The Beneficiary may not use the grant awarded by the Contractor to cover activities other than those related to the Project.

6.3. Payment Schedule

Payments will be made in three installments: a pre-financing payment of 10 000 € and a second payment of no more than 10 000 €, and a final payment of no more than 20 000 €, based on the completion of the Project, with the means of justification being the completion of the tasks and deliverable(s) associated as defined in **Appendix 1 – The Project**.

The Beneficiary undertakes to make appropriate use of the funding for the purpose of carrying out the Project in accordance with the description in **Appendix 1 - The Project**.

If, due to misuse of funds received, the EC seeks to recover from the Contractor any financial contribution paid to the Beneficiary under this Agreement, the Beneficiary undertakes to repay such amounts to the Contractor within the time limits specified by the Contractor. In addition, the Beneficiary shall indemnify the Contractor against any losses, liabilities, costs, charges, claims or damages resulting from or arising out of any such recovery action by the European Commission.

ARTICLE 7. CONFIDENTIALITY

7.1. Confidential information (hereinafter "Confidential Information") means any information, of any nature or form whatsoever, relating to any knowledge whatsoever, communicated by one Party (and/or the Organizer) to the other Party (and/or the Organizer) in the performance of the Agreement and identified as confidential at the time of its disclosure. In the case of information communicated as confidential only orally or visually by one Party (and/or the Organizer) to the other Party (and/or the Organizer), it shall be notified in writing as confidential within thirty (30) days of its communication to be considered as such.

The data included in **Appendix 4 - Background** made available to the Beneficiary is considered Confidential Information.

7.2. Each Party agrees to treat as confidential the Confidential Information communicated by the other Party (and/or by the Organizer, when the receiving party is the Beneficiary), and:

- i) Not to disclose it to third parties without the prior written consent of the Party (or the Organizer, as the case may be) who disclosed them;
- ii) To take all appropriate measures to avoid disclosure, it being understood that the Contractor may at any time request information on such measures and compliance therewith;
- iii) Not to use the Confidential Information for any purpose other than the performance of the Agreement.

This commitment is valid for the duration of the Agreement and for five (5) years from the date of expiration or termination of the RESPONSE Project (i.e. until September 30, 2030).

7.3. - Without prejudice to the possibility for the Contractor to transmit the Confidential Information of the Beneficiary to the Organizer - The Receiving Party shall limit access to Confidential Information obtained from the Disclosing Party to its employees only and shall take all necessary measures, in particular contractual measures, to ensure that its employees respect the confidentiality of the information of which they may have knowledge in the performance of the Agreement.

7.4. Each party shall immediately inform the other of anything that may suggest a breach of confidentiality obligations.

7.5. The Contractor agrees to take all measures, including contractual measures, to ensure that the Organizer is bound by the same confidentiality obligations as contained in this Article 7. In the event of any breach by the Organizer of the confidentiality obligations, the Contractor shall be held liable.

7.6. The confidentiality undertakings in **Article 7** do not extend to information that the receiving Party (or the Organizer, as the case may be) can prove:

- was, at the time of disclosure to receiving Party, published or otherwise generally available to the public, or

- has, after its disclosure to the receiving Party, been published or become generally available to the public otherwise than through any act or omission on the part of the receiving Party (or the Organizer), or
- was already in the possession of the receiving Party, without any restrictions on disclosure, at the time of disclosure, or
- was rightfully acquired from others without any undertaking of confidentiality, or
- is subsequently independently developed by the receiving Party without use of the information provided by the disclosing Party (and/or the Organizer).

ARTICLE 8. INTELLECTUAL PROPERTY

8.1. The Results of the Project are the exclusive property of the Beneficiary.

8.2. The Beneficiary grants to the Contractor and the Organizer a license to use the Results of the Project for the purpose of its implementation in the territory of the city of Turku. This license of use will be granted free of charge for a period of 5 (five) years after the RESPONSE Project (i.e. until September 30, 2030). It will be non-exclusive, non-transferable and without any right to sublicense.

8.3. [If applicable] The Contractor shall grant the Beneficiary the right to access the background (as defined in Appendix 4), when it is necessary for the implementation of the Project by the Beneficiary. These rights are granted on a royalty-free basis.

The access rights granted expressly exclude any right to sublicense, unless otherwise expressly authorized.

ARTICLE 9. FORCE MAJEURE

“Force Majeure” shall mean any unforeseeable exceptional situation or event beyond the Parties’ control, which prevents either of them from fulfilling any of their obligations under the Agreement, which was not attributable to error or negligence on their part, and which proves to be inevitable despite exercising all due diligence.

Any default of a service, defect in equipment or material or delays in making them available, unless they stem directly from a relevant case of force majeure, as well as labor disputes, strikes or financial difficulties cannot be invoked as force majeure.

The Parties shall take the necessary measures to limit any damage due to force majeure. They shall do their best to resume the implementation of the Project as soon as possible.

No Party shall be in breach of its obligations and tasks if such breach is caused by force majeure.

A Party will notify the other Party of any force majeure as soon as possible. In case the Beneficiary is not able to overcome the consequences of Force Majeure within thirty (30) calendar days after such notification, the Contractor will decide accordingly including the termination of the Agreement.

ARTICLE 10. DATA PROTECTION OBLIGATIONS

The Parties have the obligation to abide by the Regulation (EU) 2016/679 (General Data Protection Regulation – GDPR) of the European Parliament and of the Council of 27 April 2016 on the protection of participating persons regarding the processing of personal data and on the free movement of such data.

The processing of personal data shall be carried out lawfully, fairly and in a transparent manner, collected for specified purposes and adequate, relevant, and limited to what is necessary in relation to the purposes for which it is processed.

The Beneficiary shall, throughout the duration of the Project, take appropriate measures to engage with the public and the media about the project and to highlight the financial support of the EC. Unless the EC requests otherwise, any publicity, including at a conference or seminar or any type of information or promotional material (brochure, leaflet, poster, presentation etc.), must specify that the project has received research funding from the EC and display the European emblem.

In particular, the Beneficiary must include the following text: For communication activities: "This project has received funding from the European Union's Horizon 2020 research and innovation program under grant agreement No 957751". For infrastructure, equipment, and major results: "This [infrastructure] [equipment] [insert type of result] is part of a project that has received funding from the European Union's Horizon 2020 research and innovation program under grant agreement No 957751".

When displayed in association with a logo, the European emblem should be given appropriate prominence. This obligation to use the European emblem in respect of projects to which the EC contributes implies no right of exclusive use. It is subject to general third-party use restrictions which do not permit the appropriation of the emblem or of any similar trademark or logo, whether by registration or by any other means. Under these conditions, the Beneficiary is exempted from the obligation to obtain prior permission from the EC to use the emblem.

Any publicity made by the Beneficiary in respect of the project, in whatever form and on or by whatever medium, must specify that it reflects only the author's views, and that the EC is not liable for any use that may be made of the information contained therein.

The EC may use, for its communication and publicising activities, information relating to the Project, documents notably summaries for publication and public deliverables as well as any other material, such as pictures or audio-visual material received from any beneficiary (including in electronic form). The right to use a beneficiary's materials, documents and information includes:

- (b) distribution to the public (in particular, publication as hard copies and in electronic or digital format, publication on the internet, as a downloadable or non-downloadable file, broadcasting by any channel, public display or presentation, communicating through press information services, or inclusion in widely accessible databases or indexes);
- (c) editing or redrafting for communication and publicising activities (including shortening, summarising, inserting other elements (such as meta-data, legends, other graphic, visual, audio or text elements), extracting parts (e.g. audio or video files), dividing into parts, use in a compilation);
- (d) translation;
- (e) giving access in response to individual requests under Regulation No 1049/200127, without the right to reproduce or exploit;
- (f) storage in paper, electronic or other form;

(g) archiving, in line with applicable document-management rules, and

(h) the right to authorise third parties to act on its behalf or sub-license the modes of use set out in Points (b), (c), (d) and (f) to third parties if needed for the communication and publicising activities of the EC.

The Beneficiary shall ensure that all necessary authorizations for such publication have been obtained and that the publication of the information by the EC does not infringe any rights of third parties (including personnel of the Beneficiary).

Upon a duly substantiated request by the Contractor on behalf of the Beneficiary, the EC may agree to forego such publicity if disclosure of the information indicated above would risk compromising the Beneficiary's security, academic or commercial interests.

ARTICLE 12. FINANCIAL AUDITS AND CONTROLS

The EC may, at any time during the implementation of the Project and up to five years after the end of the RESPONSE Project (i.e. until September 30, 2030), arrange for financial audits to be carried out, by external auditors, or by the EC services themselves including the European Anti-Fraud office (OLAF), on the Beneficiary. The audit procedure shall be deemed to be initiated on the date of receipt of the relevant letter sent by the EC. Such audits may cover financial, systemic, and other aspects (such as accounting and management principles) relating to the proper execution of the Grant Agreement. They shall be carried out on a confidential basis.

The Beneficiary shall make available directly to the EC all detailed information and data that may be requested by the EC or any representative authorized by it, with a view to verifying that the Grant Agreement is properly managed and performed in accordance with its provisions and that costs have been charged in compliance with it. This information and data must be precise, complete, and effective.

The Beneficiary shall keep the originals or, in exceptional cases, duly authenticated copies – including electronic copies - of all documents relating to the Agreement until 5 years after the end of the RESPONSE Project. These shall be made available to the EC when requested during any audit under the Grant Agreement.

In order to carry out these audits, the Beneficiary shall ensure that the EC's services and any external body(ies) authorized by it have on-the-spot access at all reasonable times, notably to the Beneficiary's offices, to its computer data, to its accounting data and to all the information needed to carry out those audits, including information on individual salaries of persons involved in the project. They shall ensure that the information is readily available on the spot at the moment of the audit and, if so requested, that data be handed over in an appropriate form.

Based on the findings made during the financial audit, a provisional report shall be drawn up. It shall be sent by the EC or its authorized representative to the beneficiary concerned, which may make observations thereon within one month of receiving it. The EC may decide not to consider observations conveyed or documents sent after that deadline. The final report shall be sent to the beneficiary concerned within two months of expiry of the aforesaid deadline.

Based on the conclusions of the audit, the EC shall take all appropriate measures which it considers necessary, including the issuing of recovery orders regarding all or part of the payments made by it and the application of any applicable sanction.

The European Court of Auditors shall have the same rights as the EC, notably right of access, for the purpose of checks and audits, without prejudice to its own rules.

In addition, the EC may conduct on-the-spot checks and inspections in accordance with Council Regulation

(Euratom, EC) No 2185/96 of 11 November 1996 concerning on-the-spot checks and inspections carried out by the EC to protect the European Communities' financial interests against fraud and other irregularities.
